Digital library and information services specialist with more than ten years of international experience developing, managing, and improving user-centred digital information services and research infrastructures. Expertise includes research data management, Open Science, metadata and information management, and the quality assurance of digital collections. Experienced in project coordination, advisory services, training, and interdisciplinary collaboration.

Professional Experience

04.2025 – present

📖 **Research Associate – Open Science and Digital Learning Resources**, Freie Universität Berlin.

- Editorial and technical coordination of the *DraCor Textbook*; development and quality assurance of 5 chapters, templates, tests, guidelines, and review workflows.
- Authored 2 chapters and coordinated a team of 5 authors, working with reviewers and community contributors through GitHub and Jupyter Book.

04.2023 – 03.2026

📖 **Research Associate – Research Data and Metadata Management**, University of Tübingen.

- Curated and quality-assured a TEI/XML corpus comprising 205 works, approximately 3 million words, and more than 3,400 characters; modelled and normalised data relating to works, roles, characters, and persistent identifiers.
- Developed reproducible workflows using Python, Jupyter, XSLT, and APIs, and documented and published the resources through Zenodo and TextGrid.

06.2019 – 04.2024

📖 **Research Associate – Digital Collections and Publication Services**, Berlin-Brandenburg Academy of Sciences and Humanities, Berlin.

- Held editorial and technical responsibility for 34 TEI/XML-encoded digital scholarly editions; reviewed all documents and independently edited 3 editions.
- Developed a publication platform using TEI Publisher and enriched digital sources with IIIF, Wikidata, and GND identifiers in collaboration with external software developers.
- Coordinated editorial and technical workflows, supervised 2 student assistants, and led user-centred improvements based on 15 usability tests and 3 accessibility tests.

2016 – 2019

📖 **Research Associate – Digital Scholarly Editions and Data Modelling**, Cologne Center for eHumanities, University of Cologne.

- Modelled, transformed, quality-assured, and documented correspondence, bibliographic, and person data migrated from a legacy database for the Haller-Net research infrastructure.

Skills

Core Competencies	Research data management and Open Science; metadata and information management; digital collections and information services; user-centred development and improvement of digital services.
Project Management & Quality	Project coordination; data curation and quality assurance; review and documentation workflows; usability and digital accessibility; interdisciplinary collaboration.
Advisory Services & Knowledge Transfer	Researcher support and advisory services; design and delivery of training sessions and workshops; development of teaching, training, and documentation materials.
Methods & Systems	TEI/XML, FAIR principles, metadata modelling, authority data, persistent identifiers, Python, Jupyter, XSLT, APIs, GitHub, TEI Publisher, IIF, Zenodo, and TextGrid.
Languages	Spanish and Catalan: native; English: C1.2; German: B2.2, professional working proficiency.

Training and Knowledge Transfer

Teaching & Workshops	Designed and delivered practice-oriented online courses, workshops, and training sessions on digital scholarly editions, TEI/XML, digital methods, and reproducible workflows using Python and Jupyter Notebooks.
Materials & Supervision	Developed teaching, exercise, and training materials and supervised Master's theses in Digital Humanities. Taught at the Universidad Internacional de La Rioja from 2020 to 2025 and led a workshop at the DraCor Summit 2025.

Education

2011 – 2015	PhD in Humanities , Universitat Pompeu Fabra, Barcelona. Dissertation on digital scholarly editions and TEI/XML; awarded <i>cum laude</i> .
2009 – 2011	MA in Comparative Studies in Literature, Art and Thought , Universitat Pompeu Fabra, Barcelona.
2004 – 2009	Licenciatura in Humanities , Universitat Pompeu Fabra, Barcelona. Five-year university degree.

Professional and Voluntary Service

2021 – 2023	Board Member , Asociación Humanidades Digitales Hispánicas. Shared responsibility for strategic development, community building, and the promotion of open and digital research practices.
2016 – 2020	Board and Editorial Team Member , The Programming Historian. Coordinated international author, peer-review, and translation workflows and contributed to the quality assurance of multilingual open-access teaching materials.
